## How have the Ancient Greeks impacted on our society?

Dear Parents/ Carers and Year 6 children,  
 Our next topic is going to be all about the Ancient Greeks. In preparation for this please research and complete a project on it. This could be a poster, a power point, an information booklet etc. Try to be creative! We look forward to seeing and sharing them on the first day back after half term!  
 Have a good half term!  
 The Year 6 Team

As readers we will be identifying historical elements of a text and extending our comprehension skills.

As artists we be using the Greeks as inspiration to design our own Greek pots!

As authors we will be using the amazing stories of Odysseus to help us write diary entries, newspaper reports and take part in a debate. In line with our topic we will also be studying the Greek gods and goddesses and creating fact files.

As historians we will be using photos and artefacts to devise questions about how the Ancient Greeks lived. We will be comparing everyday life in Ancient Greece to ours today.

As citizens we will be looking at friendships and how to handle difficult situations, using problem solving skills to resolve them peacefully. This will be linked to discussions on taking responsibility for actions and making the correct choice.

As mathematicians we will be continuing to focus on multiplication table and related division facts. During the next half term as a year group, will be completing fortnightly skills tests, the results of which we are sure your children will tell you! The main topics will be 3D shape, area and perimeter, angles, time and mathematical puzzles.

As Computing Technicians we will understand computer networks including the internet. We will learn how they can provide multiple services, such as the world-wide web and the opportunities they offer for communication and collaboration. We will use search engines effectively and appreciate how results are selected and ranked.

As scientists, we will recap on classification from previous years. We will Also discuss the difference between helpful and harmful micro-organisms. Vaccinations and types of micro-organisms We will look into the works of Carl Linnaeus to understand the use of classification keys.

As athletes we will be continuing to develop our skills with the Sports Coach. We will be focussing on gymnastic skills.
